Evatronix with product premiers at the spring season of conferences and trade shows

Bielsko-Biala, 27 April 2022 - **Evatronix SA, the manufacturer of eviXscan 3D scanners**, is beginning a spring tour of globally recognised industry and technology events. During the upcoming trade shows and conferences the company is going to showcase the launches of its latest 3D scanners. Evatronix will also exhibit its bestselling products supporting 3D metrology, imaging and automated quality control processes like **eviXscan 3D FinePrecision** and **Optima +M scanners**.

The company experts are going to demonstrate high-quality 3D scanners differing in scanning range and accuracy. They will also present solutions for industrial quality assurance (QA), such as autonomous scanning system and 3D scanners integrated with collaborative robots.

In Europe one can meet Evatronix team at the The Control International Trade Fair for Quality Assurance 2022, which will be held at the Stuttgart Exhibition Centre (DE) from 3rd to 6th May 2022. During The Industrial Days at HUNGEXPO Budapest (HUN) dated 10-th May to 13-th May 2022 the eviXscan 3D brand will be represented by DDD Control – the Hungarian Evatronix partner. At the Global Industrie 2022 exhibition taking place at the Paris Nord Villepinte Exhibition Centre (FRA) from 17-th to 20-th May 2022 the MCE Metrology - the French distributor - will be present with the Evatronix products.

One of the most important event attended by the Polish company is going to be Rapid + TCT, which is the North America's largest and most influential additive manufacturing event. The conference takes place May 17-19, 2022 at Huntington Place, Detroit, MI (USA),

The Polish manufacturer of 3D scanners will close the spring season in Poznan (PL), at ITM Industry Europe 2022, which will be held from 31 May to 3 June 2022. During this event Evatronix SA will present itself together with companies from Silesia Automotive & Advanced Manufacturing cluster (SA&AM) operating in Katowice Special Economic Zone.

About Evatronix

Evatronix SA offers services in the area of design of electronic and mechatronic devices with accompanying software. The most common applications are *Internet Things* systems. The company,

in cooperation with proven subcontractors, realizes prototype series, pilot and low-volume production of designed devices. Evatronix SA is also a manufacturer of 3D scanners sold under the the [eviXscan 3D](#) brand. Based on the 3D scanning technology Evatronix designs and implements automatic quality control systems. On the Polish market Evatronix also acts as a supplier of printed circuit boards and *Pulsonix* software for designing printed circuit boards. The local authorities appreciated the company's innovativeness and global reach: in 2019 it received the prestigious Company of the Year award of the City of Bielsko-Biala.
